

What to expect

On the day of your appointment the Artist will show you the design and ask you if you are happy. You then have the opportunity to discuss any adjustments or changes you require.

The Artist will confirm the placement for the tattoo

You will be asked to expose the area where the tattoo is to be completed, that area will be cleaned ready for the placement of the stencil.

Once the stencil is transferred to your skin the tattoo can begin.

Our studio is an open work environment some of our work is carried out upstairs whilst the majority is conducted downstairs.

If you require discretion whilst the tattoo is completed, please let us know as screens can be provided with prior notice.

We ask that suitable clothing be worn, anything that is loose and can easily be rolled up to expose the area ready for the tattoo is preferred.

We need to ensure we have a constant flow of air, so air conditioning is in use. If you feel you may get cold please bring an extra item of clothing with you to keep you warm.

If you are booked in for a lengthy appointment we will schedule in time for breaks to be taken.

If you have any specific requirements please make us aware in advance
